CIRCULAR - No. 8

Sub : Percentage check on hidden items of works.

Ref : Circular No.MIS-1090/CR-580/PBU-III dated 16.7.90.

Instructions regarding percentage checks to be exercised by Executive Engineers on the measurements recorded by Jr. Engineers/ Sub-Divisional Engineers have been already issued vide circular under reference.

However it is observed that the Executive Engineers are not exercising the percentage check on hidden items for the works of pipe lines, supply wells, intake wells, ESR/GSR; Reinforcement of various RCC works, laying of pipe line etc.

In view of above, all field engineers are again instructed that the Executive Engineers must exercise percentage check on hidden measurements of items of works as stated above, before passing the bills.

Divisional Accountants should ensure that percentage check as required as per rules is exercised by the Executive Engineer before making payments. In case such percentage checks are not exercised, the Divisional Accountants should point out the same to the Executive Engineer in their Audit Notes and insist on exercising percentage checks.

In spite of above, if the Executive Engineer does not exercise the percentage checks, the Divisional Accountant should bring this to the notice of F.A. & C.A.O. and Member Secretary (Adm.) and Member Secretary (Tech).

Failure to follow these instructions will be viewed seriously and action deemed fit will be taken against the Executive Engineer as well as Divisional Accountant.

Rajendra Sagane
(Rajendra Sagane)
