No.MS/TS-II/350/ 3104

Date : 15-10-1999.

CIRCULAR - 28

Sub : Utilisation of surplus usable material available on M.S.A. for World Bank Project Water Supply Schemes.

- Ref :** 1) This office Circular No. MS/MJP/TS-I/350/1015 dated 12/5/97.
2) Chief Engineer, W.B.P. Cell Thane's letter No.MJP/1098/ TB/ WBP/CR-1323/ 1773 dated 23.9.99.

It has already been instructed under the circular referred at No.1 above, to take maximum efforts to consume material available on M.S. A/c or stock.

Since, the accounts for World Bank Aided Rural Schemes are to be finalised, it is necessary that either the material is used for other schemes or transferred to "Stock".

Field officers are therefore requested to contact field officers who have executed World Bank Aided Rural Schemes for getting the list of surplus materials and inform them if any of the surplus material can be used by them. This will help taking decision about transferring the surplus materials on stock.
